You get a follow-up message from Anson. "No doubt partly thanks to your help, my search into the damage done on our systems has gone smoothly. The breach is proliferating man-in-the-middle attacks on all our communications: so many that my team can't stop them all. Get to the bottom of this ASAP before the whole city goes on meltdown."

### Otherwise:

The buzzing started quiet and distant at first, but it is unmistakable now. Above the streets, platoons of drones are slowly descending on the pedestrians around you. ## Quinde

LOCATION

Meatspace. District. Quinde.

The most heavily industrialized sector of the city, Quinde is a manufacturing hub for androids, both clones and bioroids. New androids are said to walk out of HB and Jinteki factories only to walk into another to claim the job of a human worker. Unsurprisingly, there is a strong undercurrent of anti-android sentiment here, where the erosion of the working class is felt most keenly.
