Threat Assessment

Lily is gone, but a SYNC sysop is more immediately problematic. If she calls security downstairs, you might have to deal with their "guest protocols", despite your clearance. As an additional cost to enter an Unexplored Server, investigators with their cyber avatar at your cyber avatar's location must spend 1 tag clues, as a group. Locations are connected to each location adjacent to it.

Agenda 3a

Freedom of Information

Your entire body vibrates from the faint hum that permeates the floor and your mouth feels dry in the artificially cold air. You step into the access-restricted basement of NBN's corporate HQ, home of one of NBN's many immense server farms.

As an additional cost to enter an Unexplored Server, investigators with their cyber avatar at your cyber avatar's location must spend 1 tag clues, as a group. Locations are connected to each location adjacent to it.

SYNC collects information from all over the Network—there is so much data it would be hopeless to search it all. Are there any nuggets of gold in these cold wastes?

Objective – Explore NBN's servers.

Add as many story cards to the victory display as you can, then get out before they decide you should not be here.

You hear the faint sound of elevator doors opening and closing, and then a lifting voice hangs in the air.

"Ah Lily, you know I love you to bits, but you have to stop poking around down here. I've told you it's off limits, even to you—especially to you."

Lily's familiar newscaster voice replies, "Arella, what a surprise it is to bump into you! Don't worry, I was just leaving. I had a lunch for a moment and simply had to check. We're still on for simsonic night this Thursday, right?"

"Of course. Now hurry up and leave before we both get in trouble."

From the Dead

<JM> You remember Ten, who died on that Weyland job last year, right? His apartment was plastered on the newsfeeds as another "accident". I swear, I just saw his ghost.

<KJ> You don't really believe in that stuff, do you? Ghosts in the Network? That's just urban legend.

<JM> I know what I saw. He appeared out of nowhere and started talking to me, warning me about some new sentry ICE Weyland had rolled out in the server ahead. Without him I don't think I'd have gotten out in time.

<KJ> Maybe it was just someone messing with you. Or just all the Diesel you've been hopped up on.

<JM> No, it was definitely him. He even mentioned things that only he would know about me.

<KJ> Or maybe it's just your subconscious mind playing tricks on you. Look, I don't want to gaslight you, but maybe there's a more logical explanation before we start believing in ghosts in the Network.

<FC> You claim the person who put you up to this contacted you via the Shadow Net. Would you be able to get into contact with him again?

<AW> Not after you pricks caught up with me.

<FC> Convenient that you'd lose contact with your client once the cuffs were slapped on.

<AW> No, it ain't like that. I could tell you the meetbox location, but he probably sealed my access point off as soon as I went into custody.

<FC> What else did you do in the Shadow Net?

<AW> What don't people do in the Shadow Net?

<FC> Answer the question.

<AW> You can get anything there, man. Software, info, music, snuff. Hell, I got some nice pics of your wife there last week.

<FC> Cute.

<AW> Not really. Kind of ugly, actually-

<RH> Damn it, Lil, keep your voice down. Spread rumors like that around and it'll be the Clone Riots all over again.

<LL> That's not a denial, Rick.

<RH> Look, just keep it quiet, for now. When I've got something to tell the press, I'll come to you first. I promise. Right now, I can't tell you anything, I'm sorry. How did you get that information anyway?

<LL> I have my sources. If you're not telling, I'm not either.

<RH> Don't be like that.

<Guest> Look, it's an AI, but a military one. But it got too smart and the military got scared.

<> What? Like in the threedees? Big scary military AI takes control of everything and wipes us all out?

<Guest> Well, the brass in the military saw those threedees too, and this AI scares them stiff. So what do they do? Rather than destroy, they lock it up, so they don't have to say their project failed.

<> Where did they supposedly put it then?

<Guest> As far away from the world as they can, but that's still not far enough. It's trying to reach out and catch someone's attention, and that'll be when it breaks free.

<> Uh huh...

<Guest> I know, it sounds nuts. Why would I do this to myself if it weren't true?

<A> Avalon? The rumored domain of Excalibur? That is highly unlikely. What makes you think you were there?

<N1> I was tracing a rogue signal and it led me to this area of the Net that was completely empty. No data traffic, no nodes, nothing. And then, suddenly, everything changed—the colors, the patterns, the noise. It was like I was in another world. And then I saw it. Excalibur. It was like a column of chaotic images, shifting and changing in ways that shouldn't be possible. I couldn't move, I couldn't do anything as it approached me. And then, when it was about to collide with me, it was gone. I was back in the empty server.

<A> That is unsettling but ultimately is not evidence that you were in Avalon.

<N1> Well, when I got out, I talked to Smoke and described what I saw. She said it sounded the same as other runners who've been there as well. I can't get it out of my head. It was like nothing I've ever experienced.
