Clones are not People

Clones undergo a final medical review immediately prior to its delivery to the client. Each clones performance reflects heavily on Jinteki's reputation. Clones that fail this final review are recycled or repurposed for internal use. Anything less than perfection will not live up to the Jinteki brand.

The term "hopper" is slang for skyhopper, a name derived from the vehicle's quick bursts of flight between charging pads. A short-duration hydrogen fuel cell powers the electromagnetic hoverfoil rotors for hours at a time. These cells are recharged by contact with landing pads in a process called "flash charging" that lasts only a second or two.
